Smoldering Cigarette (3.1) Passes

Propane Flame (3.2) Passes

SPILLTOP WATER RESISTANCE

AATCC Test Method 22-2010 90 (ISO 4)

DESCRIPTION

From its radiant surface luster to its natural grain complexion to its smooth, soft hand, our Belmont article is a designer's dream. Profoundly attractive, Belmont is a vacuum dried aniline leather lightly finished with a water-resistant clear coat for added sustainability. Available in several lively colors, including showstopping shades of Aqua, Fuchsia and Limonite, it's no wonder Belmont is a true fan favorite.

A brief word about Spilltop: This water-resistant veneer is ideal for high-traffic areas where accidents are most likely to occur. Precision-tested following AATCC methodology, Spilltop articles are rated 90 or above with minimal-to-no sticking or wetting of the leather's surface.

CARE INSTRUCTIONS

NORMAL CARE: Under normal usage conditions, regular dusting and vacuum cleaning in crevices or bottoms is all that is necessary to clean the leather.

MINOR SPOTS: Wipe up any excess liquid immediately with a clean, absorbent cloth or sponge. If necessary, use a lightly-moistened cloth with clean, lukewarm water and let dry naturally. Do not dry with hair dryers.

DO NOT USE: Saddle soap, cleaning solvents, furniture polish, oils, varnish, abrasive cleaners, detergent soaps or ammonia.
