Boston Fire Code (BFD 1X-1)	Passes
Surface Burning Characteristics of	
Building Materials (ATSM E84)	Class A (flame treated)
IMO 2010 Part 8 (IMO RES. A652 (16))	
Smoldering Cigarette (3.1)	Passes
Propane Flame (3.2)	Passes

DESCRIPTION

As colorful as a box of crayons, Boho articles span from light to dark, with a kaleidoscope of splashy shades in between. Finished in our revolutionary Infinitas® cleanable formula, Boho is engineered to protect and complement your designs. The satiny finish is lightly stippled, adding a faint texture and surface sheen that looks and feels resplendent.

Note: Infinitas products are made in our ISO 14001 state-of-the-art facility. The formula is added during the tanning and finishing process, penetrating the hide and making it resistant to spills and stains. Though the Infinitas finish and cleaning agents are supremely powerful, they are also water soluble and adhere to our strict sustainability standards.

See next page for care instructions

TIGER LEATHER INFINITAS® LEATHER CARE SYSTEM

Infinitas leather should be cleaned exclusively with Tiger Leather's original Care Kit to ensure deep-down, long-lasting protection. Treat the leather quarterly in order to preserve its elegance and wear resistance. It is encouraged to wipe the leather regularly with a damp white cloth (restaurants should do so weekly per care instructions). The system includes a Cleaner, Cream Conditioner, Ink-Away pen, sponge and cleaning cloth.

IMPORTANT

- Before use, always test on a hidden area first, following all instructions below.
- Treat stains immediately for best results.
- Unsuitable for suede, nubuck and leather not finished with Infinitas.

INFINITAS CLEANER

This deep-acting Cleaner is specially formulated for stain removal on Infinitas leather (unsuitable for suede, nubuck and leather not finished with Infinitas).

- First, dab off residual liquids. Treat major stains, such as wine, coffee, shoe polish, grease, lipstick and water-soluble crayon, immediately.
- Apply drops of Cleaner to the dry sponge supplied with the Care Kit until the corner of the sponge is damp. For larger stains, the entire sponge may be dampened with Cleaner.
- Dab sponge repeatedly (do not rub) to work-up a lather, and let the Cleaner soak into the stain for 2-3 minutes. Then, gently rub the stain in a circular motion without applying pressure.
- Dab off the treated area with a dry towel.
- Allow the area treated with Cleaner to dry thoroughly for at least 30 minutes.
- Once stain is completely removed, apply Cream Conditioner over the fully dry area.

INFINITAS CREAM CONDITIONER

This protective, nutrient-rich Cream Conditioner is for upholstery leather and should be applied after treating leather with the deep-acting Cleaner (unsuitable for suede, nubuck or leather not finished with Infinitas).

- After using Cleaner, apply a drop of Cream Conditioner to the dry cleaning cloth supplied with the Care Kit. For larger areas, more Cream Conditioner may be applied to the cleaning cloth as needed.
- On a dry surface, apply the Cream Conditioner gently and evenly in a circular motion to the treated area until it is thoroughly rubbed in.
- Let the treated area dry for approximately three hours to ensure the Cream Conditioner has penetrated deep into the leather restoring it to its original condition.

INFINITAS INK-AWAY PEN

Easily removes pencil and ballpoint pen ink marks from the surface of leather (unsuitable for suede, nubuck or leather not finished with Infinitas).

- First, gently rub stain with Ink-Away pen.
- Rub the treated area with the dry sponge supplied with the Care Kit for about 10 seconds. The stain will start to fade at this point.
- Repeat the above steps as necessary until mark is gone.
- Apply drops of Cleaner to a clean cloth until damp and dab off the treated area with a dry towel.
- Allow the area treated with Cleaner to dry thoroughly for at least 30 minutes.
- Once stain is completely removed, apply Cream Conditioner over the fully dry area.

For your safety: Do not swallow. Keep Infinitas cleaning products at room temperature and out of reach of children. Avoid contact with eyes and mouth. In the event of such contact, thoroughly rinse eyes or mouth with water and, if necessary, consult a physician. Wash hands with soap and water after use.
