

SPILLTOP

WATER RESISTANCE

WHERE WATER FALLS, WATER FAILS.

Presenting **Spilltop Water Resistance** by Tiger Leather, a tough and tenacious veneer that resists water spills and stains like a high-performing rain shield. Offered on dozens of styles, colors and textures, it is our most popular finish and ideal for busy, high-traffic areas where accidents are most likely to occur. Precision-tested following AATCC methodology, Spilltop articles are *rated 90 or above with minimal-to-no sticking or wetting of the leather's surface*.* We think it's the most reliable and stringent application within the industry and welcome you to test its performance against the competition.

*AATCC WATER REPELLENCY SPRAY TEST RATINGS

- 100 – No sticking or wetting of the specimen face
- 90 – Slight random sticking or wetting of the specimen face
- 80 – Wetting of specimen face at spray points
- 70 – Partial wetting of the specimen face beyond the spray points
- 50 – Complete wetting of the entire specimen face beyond the spray points
- 0 – Complete wetting of the entire face of the specimen
